# MEAL SUITE

# Book Services & Appointments with MealSuite's Point of Sale

Manage bookings, payments and product sales for your salons, spas, exercise studio, maintenance services and more right from our Point of Sale system.

Customizable Scheduling

We'll work with you to set up your 'Book Service' interfaces exactly how you need them. Customize offerings (e.g. women's hair coloring vs. cut), time slots, staff assignees, service notes, and view all appointments at-a-glance for easy time management.

A Seamless & Personalized Experience for Clients

Fully integrated with your people data, you can easily view past bookings for each client in one place, enter and review personal service notes and give them the option to use their Meal Plan or Charge Account to pay. As usual, our Point of Sale system can also accept Credit Cards, Gift Cards and Cash.

Plus, sell retail products like shampoos, nail polishes, fitness equipment and more!

Centralized Sales & Service Management

No more juggling more than one system – or paper! – to manage your sales and related financials. The Book Services & Appointments Feature means you can handle your foodservice locations and extra services all in one place.
